DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group II in the reply filed on 5/3/2006 is acknowledged.

Claims 1-7 canceled from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 5/3/06.

Examiner would like to thank applicants' representative pointing out the typographical error made in the office action filed 04/04/2006, which recited group II consisting of claims 11-15. The correction to the record, which reflected in fact claims 8-15 are directed toward methods, of group II, is appreciated.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim language "acidic solution without halogen ion and hydrogen peroxide 5~20 wt%" is unclear because it could be interpreted to mean - -;

Art Unit: 1765

5~20 wt % acidic solution, that has no halogen ions or hydrogen peroxide; - -OR - - ;

5~20 wt% acidic solution and hydrogen peroxide, with no halogen ion; - - . All claims depending from claim 8 are also rejected.

Claims 11-12, 14 and 15 all fail to use proper Markush language.

Claim Objections

Claim 10 is objected to because of the following informalities: It is not clear if the limitation that follows the term "preferably" further limits the claim, or is even required by the claim. Appropriate correction is required.

Allowable Subject Matter

Claims 8-15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowable subject matter:

Prior art does not disclose or suggest roughening the etched copper/copper alloy surface with a surface bonding promoter comprising: 0.1-20 wt% copper oxidant; 5-20 wt% acidic solution with no halogen ion or hydrogen peroxide; and 0.001-10 wt% nonionic compound having amino/CONH chains. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such

submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
